

Performance Reviews

LAMS 2.5

- Amazon EC2 1100 concurrent users

LAMS 2.3.5

- Clustering to support over 2000 concurrent user
- Single Windows 2008 64 bits 8GB RAM 8 Core 2.4GHz
- Single Ubuntu 10.04 64 bits 8GB RAM 8 Core 2.4GHz

LAMS 2.3+

There has been very significant improvements in memory consumption and speed in LAMS 2.3. Additionally, after 2.3.1 we change to Jboss5 and have done a thorough

- Over 1000 concurrent users on a normal desktop with [LAMS 2.3 on JBoss5](#)
- The Planet's [Performance Cloud Server](#) and LAMS 2.3.4 (JBoss 4.0.2)

LAMS 2.2 and older

- Amazon EC2
- Huazhong Normal University, China (July 2007)
