

After completion you will get a confirmation on the number of lesson links that we updated:

Update LAMS links after course import

If you have imported a course into Blackboard and this is using the **same** LAMS server, then you can use this button to regenerate the LAMS Lesson for this imported course.

Correct Grade Center

After you have copied or imported LAMS lessons from other course sites, and updated the LAMS links, please check that the correct number of columns for these LAMS lessons is displayed in the Grade Center in NTULearn.

If you find any inconsistencies in the number of columns in Grade Center, you can use this feature to correct the inconsistencies.
