

2.1RC1

LAMS 2.1 Release Candidate 1

IMPORTANT!

This is **not production release** yet and it should be used for education and testing purposes only. You might be able to use it with real students as it's fairly stable, but be aware that we are still testing it.

Key Features

This Release Candidates builds upon the previous [2.1 Beta release](#) and implements a [long list of improvements and bug fixes](#). Probably the most important features introduced in 2.1 are:

Branching and conditionality

- [Branching and Conditions](#) and
- [Sequences within Optional Activities](#)

Flashless learner

- A new interface for learners so they can opt to use the classic LAMS learner (which uses Flash) or a [new slick HTML \(no flash\) interface](#) that you can use in [Mobile Devices](#)

Further information
