

LAMS 2.3 Testing!

LAMS 2.3 is on it final stages and getting closed to be released!

It comes with a ton of [very cool features and fixes](#) that will make your LAMS experience a lot better.

But in order to get this release out to you quicker, we need **your help!**

You can be part of the release by helping Test LAMS v2.3. All it takes is for you to [sign up for a testing account](#) and have a play with the latest LAMS. If you find any errors or have comments on how to improve some features, post them in the [LAMS Community](#).

For more instructions on what/how to test, read [this posting](#).

Thanks!
